

MARK HAROLD VALDERRAMA

Porac, Pampanga, PH

EDUCATION

Bachelor of Science in Computer Science

Angeles City, PH

Holy Angel University

Expected Graduation: April 2027

- President's Lister for Academic Excellence
- HAFRD Academic Scholarship Recipient, Third Year

EXPERIENCE

Student Assistant

Angeles City, PH

Holy Angel University

Nov 2023 - Apr 2024

- Digitized daily physical logs into Excel databases to maintain accurate tracking of incoming and outgoing departmental assets.
- Audited daily classroom schedules via physical walkthroughs to ensure accurate tracking of professor attendance.

PROJECTS

Shifted

Remote

Game Developer

May 2026

- Engineered core gameplay systems in Godot 4, including a fast-paced collection minigame with custom ingredient and obstacle spawning mechanics.
- Implemented dynamic environmental and audio systems using CanvasModulate, randomized lighting effects, a Global BGM Autoload, and signal-based architecture to create reactive gameplay experiences.

AlertWave

Remote

Full Stack Developer

Apr 2026

- Developed a privacy-first mobile accessibility application using Flutter and TensorFlow Lite, integrating YAMNet for real-time, on-device environmental sound classification.
- Engineered continuous background audio monitoring with isolate-based services, custom RMS-based proximity estimation, adaptive confidence thresholds, and automated SOS alerts with GPS location and sound logs.

AldawWave: Data-Driven Commute Recommender

Quezon City, PH

Backend Developer

Sep 2025 – Nov 2025

- Achieved Top 10 Finalist among 40 nationwide competing teams for developing an AI-assisted mobility platform focused on heat-safe commuting.
- Engineered a Python/Flask backend integrating Google Maps and Open-Meteo APIs with Pandas and NumPy to analyze routes, weather conditions, and NOAA heat indices for safer commuting.
- Developed a time-window algorithm evaluating 10 hours of departure options and integrated Google Gemini and Matplotlib to generate personalized travel recommendations and 24-hour heat timeline visualizations.

FundBuddy: AI-Driven Financial Reporting

Angeles City, PH

Mobile Application Developer

Oct 2025

- Engineered a secure Flutter mobile finance tracker using Supabase and PostgreSQL, implementing Row Level Security, Google OAuth, and role-based authentication for student organizations.

- Integrated Google Gemini 2.0 Flash Lite for automated receipt data extraction and Supabase real-time subscriptions to power live dashboards for tracking organizational inflows, outflows, and balances.

LEADERSHIP & ACTIVITIES

Public Relations & Information - Committee Staff Code Geeks – HAU

Angeles City, PH
Jun 2024 – Apr 2026

- Recorded and shared accurate minutes of the meeting after virtual team calls
- Drafted clear email templates for distributing event certificates to attendees.
- Assisted in writing structured scripts for organization events.

Finance - Committee Staff Google Developer Groups on Campus – HAU

Angeles City, PH
Jun 2025 – Apr 2026

- Handled payments and maintained accurate records for GDG uniform orders.
- Verified collected payments against Google Forms records and calculated total merchandise revenue.

CSO Representative AWS Learning Club – HAU

Angeles City, PH
Jun 2025 – Apr 2026

- Communicated major announcements from school organization heads to club officers.
- Ensured timely and accurate dissemination of important organizational updates.

Creatives - Committee Staff League of Outstanding Programmer – HAU

Angeles City, PH
Jun 2024 – Apr 2025

- Photographed and recorded organizational events for official documentation.
- Prepared visual materials for use in official letters, reports, and social media posts.

Logistics - Committee Staff School of Computing Student Council – HAU

Angeles City, PH
Nov 2024 – Apr 2025

- Managed on-site supply distribution to ensure materials were properly allocated during events.
- Maintained office organization and inventory to support efficient daily workflows.

Vice-Governor - Committee Staff School of Computing Student Council – HAU

Angeles City, PH
Jun 2024 – Oct 2024

- Supported event preparation through props creation and various logistical tasks.
- Provided additional manpower and on-site assistance across different event operations as needed.

TECHNICAL SKILLS

Programming: Python, Java, JavaScript, SQL, Dart

Frameworks & Libraries: Flutter, React, Node.js, Express, Flask, TensorFlow, PyTorch, Pandas, NumPy, Matplotlib

AI & Machine Learning: TensorFlow Lite, Generative AI, Google Gemini API

Web & Mobile Development: React, Vite, Node.js, Express.js, HTML/CSS, Flutter

Databases & Cloud: PostgreSQL, Supabase, AWS

Tools & Platforms: Git, GitHub, Figma, Visual Studio Code, Godot 4
